Claim 1 is allowable over the prior art of record because the teachings of the references taken as a whole do not show or render obvious the combination set for the including: (1) a endless conveyor mounted on the support frame, having a plurality of tines projecting from an outer side thereof and a flight extending from a front end adjacent ground level; and a receptacle mounted on the support frame, positioned to receive articles removed by the tines, and having a set of tines mounted on a front, transverse wall thereof, cooperable with the conveyor tines to dislodge articles carried by the conveyor tines.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
